INFANT/TODDLER AQUATICS: (1/2 HR DURATION)

8:1 (STUDENT/TEACHER RATIO)

Parents are in the water with the children for these classes. This creates a one-on-one ratio (parent and child), which will enhance the learning process.

INFANTS: 6 – 14 MONTHS (approx)

Introduces 4 basic water safety skills - breath control, mobility (turning), propulsion (kick and paddle) and safe exiting. Parents should regard early water familiarisation exactly for what it is – a very valuable exercise in promoting a child’s overall development and a skill whereby the risk in case of accidental immersion is minimised. Infants learning through water play.

TODDLER/TODDLER PLUS: -14 MONTHS – 3 YEARS (approx)

Further development: an exciting and fun program incorporating safety and development. These are the important years. Toddlers learn how to propel themselves through the water and bring themselves to safety while still under the care of their parent/guardian, further development of floating skills and object retrieval.

**AS MUCH PRACTICE AS POSSIBLE IS RECOMMENDED FOR ALL LEVELS WITHIN THE INFANT/TODDLER AQUATICS AND LEARN TO SWIM PROGRAM.
REMEMBER: ANY NEW SKILL LEARNT REQUIRES CONSTANT PRACTICE TO BECOME HABIT.**
